

INFORMATION ABOUT COMPANY FLEET PERMITS

Colorado created an annual Company Fleet Permit (CFP) for companies with oversize (OS) and/or overweight (OW) permits for two or more vehicles. The benefit is to have all annual permits issued to one company expire on the same day. This will streamline renewal processing dates for companies.

The cost of CFPs may be another benefit for some companies. A CFP costs \$3,000 for the first two (2) to ten (10) vehicles and \$300.00 per vehicle for each vehicle over tenth (10th) one. It is obvious this is not a cost savings for companies whose fleets are exclusively oversize since individual OS annuals cost \$250.00 each. It is also not a cost benefit to OW or OSOW fleets with seven (7) or less vehicles since the renewal fees for seven (7) OW or OSOW vehicles on individual annuals remains \$400.00 each or \$2,800.00 for seven (7). It is up to the company if the uniform expiration date is worth the upfront costs of a CFP.

The chart below shows the base costs for a Company Fleet Permit:

No. of Vehicles	Cost
2-10	\$3,000 flat fee
11 or more	\$3,000 + \$300 per VIN over the 10 th vehicle

QUARTERLY PRORATING

Once a company has purchased a Company Fleet Permit it may wish to add vehicles during the one year duration of the CFP but will not pay the full \$300 per vehicle charge for any vehicles over 11. A prorated fee will be calculated using the following formula:

Days remaining on CFP	= Quarters remaining	Prorated fee to add vehicle to CFP
1 – 45	0	\$0
46 – 92	1	\$ 75
93 – 183	2	\$150
184 – 274	3	\$225
275 – 364	4	\$300

Company Fleet Permits are ordered at coopr.codot.gov. Once the Company Fleet permit has been issued, then an Annual (Company Fleet) permit needs to be ordered for each unit.
